Lt. Lucien Patton Mentioned For Conspicuous Bravery By His Commanding Officer

Another one of Madison's Own has made a name for himself in the world war. Lucien Patton, was born and raised in this city, at lately of Louisville, has been cited for conspicuous bravery during the last days of the fighting near the Somme section at Verdun. He attended the Second Officers' Training camp at Fort Harrison where he won an officers commission, and at the time the armistice was signed, held the rank of First Lieutenant.

Lieut. Patton at the time war was declared was holding down a responsible position in Pittsburgh, but heeded the call of his country or men and after winning his commission was assigned to the 1st "Wildcat" division and sailed overseas in July, 1918, and was sent to the front in September. The division is still in France.

Major Gen. Charles A. Bailey, commanding the 81st division, in report of operations says: "The commanding general desires to express his appreciation of the conduct of the officers and men of the division during the operations of the 9th, 10th and 11th November last, in the Somme sector at Verdun, during the advance of the First Army, of which it formed a part."

The following named officer is particularly commended for gallant and meritorious conduct.

First Lieut. Robert L. Patton; for conspicuous bravery and courage in handling his platoon during an attack on Hermeville on the morning of November 11, 1918 in the face of the heavy artillery bombardment and machine gun fire, which he encountered from moment the attack was launched, he led his platoon forward with splendid courage and coolness at a rapid rate. He showed remarkable ability in making quick decision and coolness presented a great number of casualties in the company. He reached point well forward in the advance when hostilities ceased.

Lieut. Patton was born in Lexington. He was graduated from Princeton in 1912 and was in business in Pittsburgh when America entered the war. He attended the second officer's camp at Ft. Normal School Notes (W. B. Tropser)

Prof. G. D. Smith, who has been visiting "Maiden Ridge" over week end, brings us the good news that the prospects for fruit this year look better than in previous years.

The literary societies met in their regular society rooms Monday evening and under the supervision of their faculty advisers. The students hope to gain some talents worth while along literary lines. The Periclesian Literary Society, instead of having its regular program Monday evening, had a social which was enjoyed by all present.

The Eastern nine was again deprived of its regular practice hour on account of weather conditions. But the boys will work hard to make up for lost time when opportunity presents. They are planning to show the Stanford team a merry time here next Monday afternoon.

President T. J. Coates spoke to the Eastern boys in the Y. M. C. A. room of Memorial Hall last evening on the things which concern young men in their every day life. You know there are certain people you always love to have around, so President Coates is one of that nature.

Dr. Myers is kept quite busy this week meeting the regular Eastern chorus and the cast of characters of "Polished Pebbles" practically every evening.

Miss Lelia Stroker and Miss Lucretia Adams have returned to the campus for the fourth term.

LIBERTY CALENDAR NEXT ON PROGRAM

A bill will be presented at the next session of congress for the establishment of the "Liberty Calendar," providing that each month shall have exactly four weeks. Headquarters of the organization pushing the scheme are in Minneapolis but an effort to obtain state organizations everywhere will be made. C. F. Dunn, of the Lexington Board of Commerce, has been made chairman for Kentucky with James Maret, the Boone Way Man of Winchester as assistant manager.

MISS A. B. WARD NAMED MANAGING DIRECTOR.

The Phoenix Amusement Company was incorporated in Lexington this week with \$200,000 capital stock, fully paid in, and will take over the old company operated under that name and will also control motion picture theatres in Lexington, Paris, Winchester and Richmond. J. B. Elliott, has been elected President, with Garret Wilson, Vice Pres., Barney Treacy, Sec-Treas., and Miss Anna Bell Ward as Managing Director of the company. The directors in the company are J. H. Elliott, G. A. Wilson, H. S. Bower, L. A. Michler, Fred Stiltz, H. A. Stiltz and Miss A. B. Ward. A two per cent dividend will be paid monthly beginning May 5th.

Miss Ward as managing director will retain her office in this city and will personally look after the Alhambra and Opera House, besides taking care of the many other theatres under her jurisdiction.

STOREROOM 20x50 feet is being built at corner of Second and Water streets, right in heart of city; will be fitted up to suit tenant who will lease; will also have two office suites upstairs which will also be arranged as to rooms, etc., to suit tenants who will lease; water and heat will be furnished. Apply Daily Register office for particulars. tf

VICTORY LOAN TERMS ANNOUNCED

Chairman Burnam Announces Committees That Will Assist Him In County's Quota

Everything possible is being gotten in readiness by Chairman Paul Burnam in preparation for the opening of the Victory Loan campaign which commences next Monday. Madison county has been allotted her usual large quota, due to the prosperity of this district, but as has been done in the past loan campaigns, the committee will each one take it upon themselves to be responsible for the amounts to which they will be allotted and, 100 per cent will be their slogan.

A number of attractions have been booked to appear in Richmond during this whirlwind campaign, and the latest feature to be allotted to this city is the announcement that Capt. Joseph E. Torrence, U. S. A. will speak in the interest of the Victory Loan in this city on Monday, April 21. Captain Torrence saw more active service during the war than any one in this section. He went through the siege of Verdun, the Meuse, Chateau Thierry and the Argonne Forests and received many wounds. His left arm was shattered and paralyzed and he has been decorated with the Croix de Guerre, cited for gallantry, and recommended for the D. S. C.

Peace Conference Situation Improves

(By Associated Press)

Washington, April 16—A distinct improvement in the general peace conference situation is reported to the White House today from Paris. It is indicated that excellent progress has been made toward concluding the negotiations.

LLOYD-GEORGE ANSWERS CRITICS

Situation Still Full of Perils—Warns Against Intervention In Russia

London, April 16—Bulletin—Replying in the House of Commons to previous criticisms of his activities at the peace conference Premier Lloyd-George said the situation was still full of perils for the allied countries. He pleaded that those who were trying to do their best should be let alone.

Premier Lloyd-George asserted that no conference in history faced problems of such variety, complexity, magnitude and gravity. He deprecated the attempts that had been made to sow dissensions among the allies and he insisted that the United States and Europe had not been at variance.

He further asserted that Russia had not made any peace overtures and the question of recognizing Russia had never been discussed. He said it was his earnest conviction that military intervention in Russia would be the greatest act of stupidity and that while the Bolshevik force was apparently growing, the Bolshevik itself was gradually breaking down before the relentless force of economic facts.

Referring to the League of Nations, he said that the time spent on it was saved and not wasted, and would provide means of adjusting possible errors.

London, April 16—Bulletin—The allied representatives in Paris have reached a complete understanding on the great fundamental questions that would affect peace with Germany, Premier Lloyd-George declared in addressing the House of Commons today. He said the allies had formulated their demands which he hoped would be presented by the end of next week.

"We want a stern peace," he said, "because the occasion demands it, but it must not be designed to gratify vengeance but to vindicate justice and, above all, we want to protect the future against a repetition of the horror of this war."

Local stock dealers are beginning to ship hogs bought during the past winter to the city markets. They have been bought all the way from 16 to 18 cents a pound and should make the dealers a nice profit at present prices.

W. E. Parsons, of Karso, Mo., has been in Clark and Bourbon counties, buying stock jacks, for several days. Ten jacks were bought, including some of the best stock in the Blue Grass. They were bought at an average of about \$600.

What is said to have been a record price for Mercer county land was recorded late last week when Pleasant Houp sold his land on the Burgin and Pleasant Hill pike out of Harrodsburg for over \$10,000. There are only 29 1-2 acres in the tract. Four acres with a residence and store were bought by Joe Worley for \$5,500 and an unimproved tract of 25 1-4 acres was bought by R. W. Gwin at \$300 an acre.

The Italian government, which controls the sale of tobacco in that country, is putting on the market a new variety, which will be sold at a very low price. It is denicotinized, containing only 10 per cent of that nicotine.

Thirty-three prominent farmers of Montgomery county have signed a petition requesting the sheriff to post a standing reward for the arrest and conviction of persons stealing livestock. Each farmer agrees to pay \$10 to make good the reward offered. A lot of stock has been stolen in that section within the past few weeks.

Millions of Catarrh Germs Afloat in the Air

Atmosphere is Laden With Germs of The Disease.

Every person afflicted with Catarrh releases millions of the tiny disease germs with every cough or sneeze, so that whenever on the street cars or street or other public place you see a person afflicted with this disease hawking and coughing and sneezing, everyone in their vicinity is exposed to the disease.

You along with everyone else will find yourself exposed to the germs of Catarrh several times every day. The germs multiply by the millions, and the air you breathe is thick with these tiny little disease demons that cause so much distress and suffering.

Catarrh is one of the most stubborn diseases, and is always worse in cold, damp and disagreeable weather. It should not, however, be considered incurable, though there are thousands afflicted with it who are doubtless ready to believe that a cure is impossible, because of their experience.

But like all other afflictions, the main trouble is that Catarrh is entirely misunderstood, and therefore treated in the wrong way. Because these little germ demons attack the delicate membranes of the nose and throat, choking up the air passages and irritating the tender lining of the nostrils and bronchial tubes, the average sufferer makes the mistake of

treating merely the symptoms of the disease, and overlooks its cause.

You must realize that Catarrh is more than a mere local irritation that stops up your nose and irritates your throat and chokes up your breathing apparatus.

Your blood is saturated with Catarrh germs, and these will continue their irritating attacks as long as they remain in the blood.

The only sensible treatment, therefore, is the one which will rout the disease germs from the blood.

This is why the most satisfactory remedy for Catarrh is S. S. S., the famous old reliable blood purifier. S. S. S. has been used successfully for Catarrh for more than fifty years, and it is the one remedy that attacks the source of the disease, cleansing the blood thoroughly, and eliminating from it every trace of disease germs.

If you want a remedy that goes direct to the seat of the disease, begin to take S. S. S. to-day, and throw away your atomizers and other local treatment that cannot possibly reach your Catarrh. You will be delighted after giving this remedy a trial, and will soon find yourself on the road to a complete recovery. S. S. S. is sold by druggists everywhere.

Begin its use to-day, and write for free medical advice about your own individual case. Address Chief Medical Adviser, 103 Swift Laboratory, Atlanta, Ga.—(Adv.)

ORIGIN OF MEDICINES

The agents employed for the treatment of disease are taken from the three kingdoms of nature, the vegetable, animal and mineral. Most medicinal substances are taken from the vegetable kingdom and consists of leaves, flowers seeds barks and roots. The old-fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, which owes its success to the vegetable kingdom, has constantly grown in popularity and favor until it is now recognized as the standard remedy for female ills.

Warm expressions of praise for Meritone have been given wherever it has been introduced. Those endorsements of its true merit come from people of integrity who have tried it and are thoroughly convinced that Meritone has no superior as a system medicine, tonic, and strengthener.

"Meritone is one of the greatest strength builders in the world," said Mrs. W. D. Turner, of 312 Thirty-Third avenue, north Nashville, Tenn.

"I have taken lots of medicines but the two bottles of Meritone I have taken have done me more good than all the others put together."

Regains Strength

"I lost all strength, energy, and ambition," said Mrs. Helen Barker, of 614 Virginia avenue, Knoxville, Tenn.

"My household work became a burden to me."

"Since taking Meritone my strength energy and ambition have come back and I really enjoy doing my housework."

"For years I have suffered from sleeplessness and it's a wonder I didn't completely break down," said Mrs. Virgie Meek, of 419 High street, Clarksville, Tenn.

"Meritone has made a wonderful change in me. I go to sleep now as easily as could be and sleep soundly all the night."

"Meritone is the only medicine that ever brought me any real benefits," said Mrs. W. H. Whitson, of 601 West Short street, Lexington, Ky.

"It banished the stomach trouble I had for fifteen years."

WIFE ASKS FOR DIVORCE**

Columbia, Ky., April 15—Mrs. Daisy Hamlett, wife of Barksdale Hamlett, former Superintendent of Public Instruction of Kentucky, and candidate for the Democratic nomination for Governor four years ago, editor of the Adair County News since October, 1917, filed a petition in the office of the clerk of the Adair

Circuit Court, praying for a divorce from her husband and \$4,000 alimony and the care and custody of three children, Edward C., aged 17 years; Barksdale Jr., 10, and Margaret, 3. Her petition states that her husband is confirmed in the habit of drunkenness, which has increased in the past few months. She states that she owns and has published the Adair county News since October, 1917, and that defendant, Barksdale Hamlett, has

charge of it most of the time, and he gets drunk, collects and wastes the proceeds and acts in such a way toward the employees that it is hard to keep them at work and that she will not be able to get out the next issue of the paper.

JEWISH RELIEF

SECURES \$1,800

With Four More Days the Team
Expects To Reach the \$3,200
Goal In Madison.

The Jewish Relief drive reported \$1,800 last night at the end of the second day. Many of the teams are covering their territory today and are expecting to raise this total a considerable amount. The above report includes no report from the county, where the campaign is going much slower than in town. County Chairman Green is touching county organization today and it is hoped that the county will respond with its part of the quota. Only one report has been received from the county with the opening of the day's work.

Berea is not in the canvass yet, but will see that her full part of the pledges is reported by next Monday. The county chairman announces that if Madison is to go over, every effort will have to be made. He desires to urge the county workers particularly to cover their territory and not let any part of the county fail. The county teams are asked to make a definite report to the chairman not later than Thursday night, at which time all the Richmond teams will have covered their territory.

Reports from other sections of the state and country indicate that the American people can still be counted upon in a welfare movement and are unwilling to reap the rewards of the war without having fellowship with those who are suffering from its results.

A last appeal is being made in behalf of the 3,000,000 starving Jews in the war devastated districts and it is believed that America with her abundance will give before she will let them die. Let every worker in Madison county and every citizen join in doing this country's part.
